The automated complete solution for all areas of your business

- Manage your office administration, sales (online and physical), online presence and employee administration simply and efficiently in a single tool.
- Just one login, all data entered just once and a consistent user interface: simple and secure.
- Flexible scalability: thanks to its modular structure, you can subscribe only to the applications that support your company.

Ready to use in just a few minutes

- Quick to configure
- Get a non-binding, 30-day free trial
- Don't want to collect the data yourself or set up the accounting system? The KLARA Setup Service will be happy to do this for you.
- In KLARA, you can handle everything yourself. If you need support, the KLARA Coaches are on hand to help.

Save time thanks to extensive automation and AI

- No need to think about accounting systems: you don't have to know any account systems or detailed accounting rules. KLARA knows how it all works and enters your receipts almost automatically. Even non-professionals can handle accounting efficiently and precisely.
- Efficient expenses management becomes child's play: KLARA sorts your employees' receipts automatically for the credit card bill and handles book entry at the same time. Even differences like tips are assigned directly to the correct account.
- Project management at the click of a mouse: enter orders, create invoices and manage your accounting directly – all in a single tool.

One solution for all your office administration

Thanks to its modular structure, KLARA grows with your company – it's perfect for start-ups and new businesses. Start small and subscribe to applications as you need them without having to re-enter data.

“ I'm not very familiar with accounting and I don't really enjoy it. This is why I'm so happy we have KLARA. I use the checkout for payment collection, the accounting takes place in the background – and the Inventory function keeps an eye on our stock levels. ”

Ting Srikhamwan, founder and Head Chef at Ting's Tuctuc
